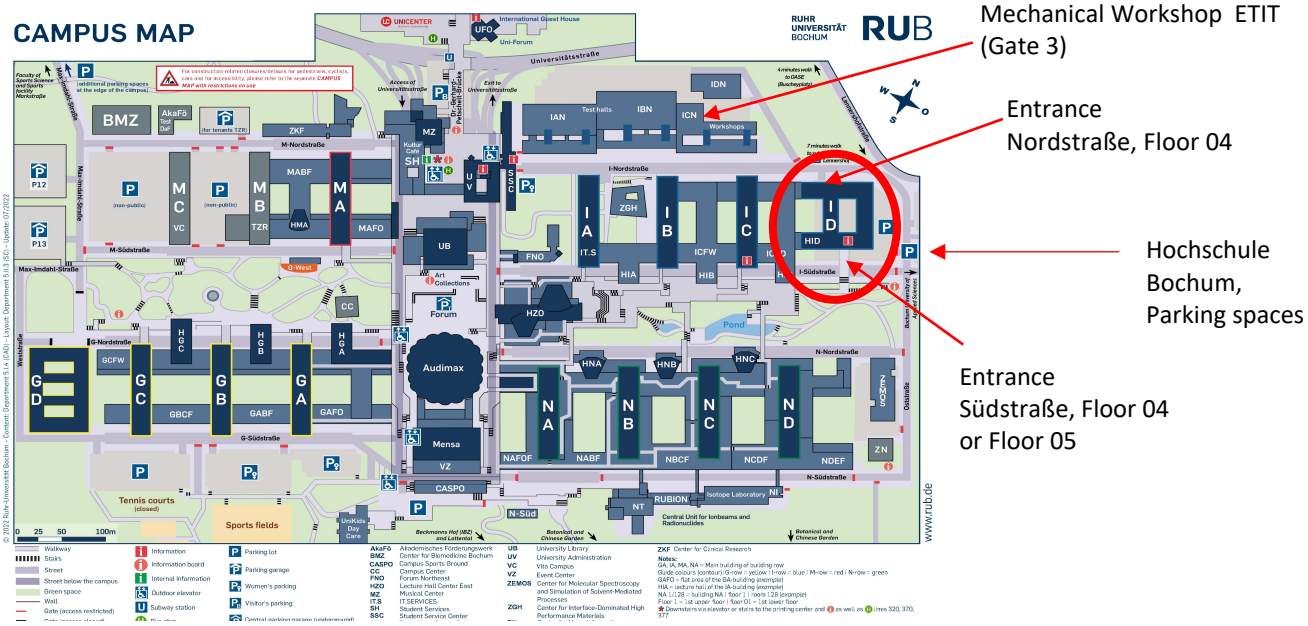
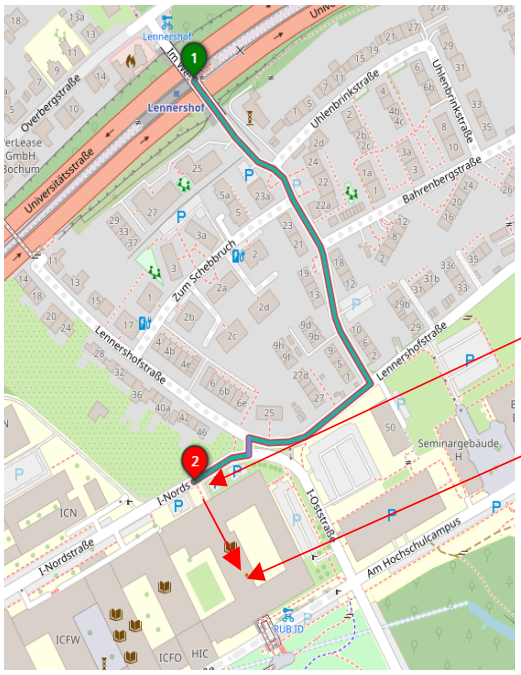
Directions to the Faculty of Electrical Engineering and Information Technology (ETIT), Building ID

By car, the Ruhr-Universität Bochum can be most easily reached via Autobahnkreuz Bochum/Witten (A43 / A44). From the A43, take exit 19 (Bochum-Querenburg) and follow signs for "Ruhr-Universität." Proceed toward Hochschule / Botanischer Garten and follow the priority road toward the Hochschule (campus). After approximately 1 km, you will see the campus on your left, on Lennershofstraße. Continue straight ahead—the path will lead you directly to Building ID.

For the Mechanical Workshop (Building ICN):
Turn right onto I-Nordstraße. Follow this street and turn right at the first barrier (ring the bell at the gate). This will take you to the large parking lot in front of Gate 3.





By Underground (U-Bahn):
From Bochum Hauptbahnhof, take U-Bahn line U35 toward Ruhr-Universität Bochum. The quickest route to Building ID involves alighting at "Lennershof" station—just one stop after "Ruhr-Universität".
